EDUCATION

B.Tech Computer Science and Artificial Intelligence

Lucknow, India | Jun 2021 - Present

INDIAN INSTITUTE OF INFORMATION TECHNOLOGY, LUCKNOW

CGPA: 9.06

Coursework: OOP, OS, DBMS, Data Structures and Algorithms, Computer Architecture, Web Development

WORK EXPERIENCE

COINBASE GLOBAL | SWE INTERN

Hyderabad, India (Remote) | May 2024 - Aug 2024

- Revamped **ReactJS** UI for internal tool (SONAS) to improve accessibility and directly allow other teams to add data pipelines for their data.
- Made API endpoints in **Go** to support the UI and perform pipeline actions like creating and updating triggers.

FILIT BHARAT FINANCIAL SERVICES | TECHNICAL INTERN

Lucknow, India | Aug 2022 - November 2023

- Sole web developer. Implemented multiple iterations of the website [filit.in](https://www.filit.in) with **NextJS** to showcase the product.
- Made mediation and authentication APIs for the micro-investing application using **Django**.

WCARL | HARDWARE DEVELOPER

Lucknow, India | Dec 2022 - April 2023

- Team of two. Assembled hardware for a professional-grade, cost-effective drone which cut costs over 70%.
- Core Team Member of the drone project for the **HRD ministry & State government**

PROJECTS

SEARCH FILTER INTEGRATION [↗](#)

PYTHON, JINJA, JAVASCRIPT, IPYWIDGETS

A search filter contributed in the open source data analysis tool, **ydata-profiling**. The search filter allows to skim through columns when scrolling isn't viable reducing search time by over 80%.

FREELANCING [↗](#)

NEXTJS, FIREBASE, WEBFLOW, WORDPRESS, TAILWINDCSS

Level 1 seller on Fiverr. Made multiple real world full stack projects based on orders received via freelancing platforms like Fiverr and Upwork. Learnt and developed on various tech stacks like MERN, Firebase, Webflow etc.

[NCWaterfalls](#) [Coursessor](#) ([frontend](#), [frontend and auth](#))
